SETUP BEFORE SMART ADAPTOR INSTALLATION

SETUP AFTER SMART ADAPTOR INSTALLATION

PLEASE NOTE Port number may vary. Port #1 (on Smart Adaptor) should not be used and will not grant access.

1

Unpack ValleyInternet's Smart Adaptor and plug it into power using the enclosed power supply.

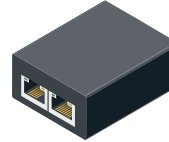

Smart Adaptor

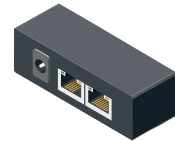

2

Locate your existing POE adaptor.

Types of POE Adaptors

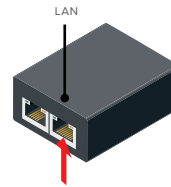

OR

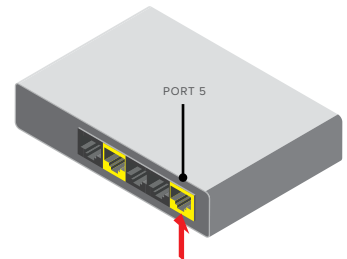

3

Using an Ethernet cable, make sure one end is connected to the **LAN** port on your POE Adaptor and connect the other end to the port labeled **PORT 5*** (or the highest numbered port) on the Smart Adaptor.
